Cookie Policy

NEMOPAY GLOBAL CORP. Last updated: 28 October 2026

5.1 What Are Cookies and Similar Technologies

Cookies are small text files placed on your device when you visit a website. Similar technologies include pixels, web beacons and local or session storage. These technologies allow a website to recognize a device, keep a session working, support security and, where used, measure how a website is used.

This Cookie Policy explains which cookies NEMOPAY GLOBAL CORP. (“NEMOPAY”) uses on nemopay.io and how you can manage them.

5.2 Cookies We Use

NEMOPAY’s website uses only essential cookies and similar technologies. These are strictly necessary for the website to function and to be delivered securely, for example to keep a page session working or to protect the website against abuse and automated attacks. They may be set by NEMOPAY or by its website hosting provider, which hosts the website in a European Union data centre. Essential cookies do not require consent.

NEMOPAY does not use:

- analytics or performance cookies;
- functional or preference cookies;

advertising, retargeting or social media cookies; or
any other cookies or similar technologies that are not strictly necessary.

NEMOPAY does not use cookies to build profiles of visitors or to make automated decisions about them.

5.3 Server Logs

When you visit the website, the hosting provider's servers record technical information such as your IP address, browser type and the pages requested. This information is used only to operate and secure the website and is handled in accordance with NEMOPAY's Privacy Policy.

5.4 Consent Before Any Non-Essential Cookies

If NEMOPAY decides to introduce any non-essential cookies or similar technologies, such as analytics, it will first update this policy and will set them only after a visitor has given consent through a consent tool on the website. Visitors will be able to refuse or withdraw consent as easily as they give it. This applies to all visitors, wherever they are located.

5.5 Managing Cookies in Your Browser

You can view, block or delete cookies through your browser settings at any time. Blocking essential cookies may affect how the website works.

5.6 Retention of Cookie Data

Session cookies are deleted when you close your browser. Any persistent essential cookie remains on your device only for as long as needed for its purpose, or until you delete it.
